

## **John Aycock – Distinguished Visitor Report by Karen Renaud**

John Aycock gave talks at Glasgow, Edinburgh, St Andrews and Abertay Universities. He also gave the keynote talk at the SICSA conference. In terms of further collaborations:

Potential future collaboration with Karen Renaud (Glasgow) on multi-agent systems. A forensics-related project with Tim Storer and Brad Glisson (Glasgow) is also envisaged. Tim and Brad are currently looking for a PhD student to work on this project. John spent time discussing research with PhD students, which was very helpful to them. He influenced ethics processes in both Dundee (based on a comment afterward saying they needed to adjust their ethics to take some points I raised into account) and Edinburgh (David Aspinall asked for my talk slides and further information on ethics security policies prior to attending a university meeting on the topic).
